

MY STRATEGIES ON HOW TO

get your home sold fast and for the most money

quality photos are key

Professional quality and authentic photo's are most important. I provide my clients with just that at no charge!

publishing video content

I provide simple and short videos to draw in buyers and get them excited.. Focusing on the best aspects of your home! Posting on SM as well as sent via email and text. And shared with you to send as you wish!

writing compelling descriptions

Touring your home will give me what I need to write a great description for your home but you'll be involved. Working together along the way to convey features & benefits!

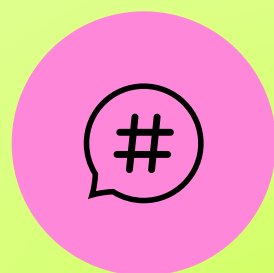

publishing consistently

Your listing will have Coast-to-Coast exposure to agents working with buyers that are looking to relocate here. Possibly for Military, corporations such as Cargill, Koch or Spirit or simply want to be closer to family.

reaching the most eyes

Marketing is key to getting your home sold. Engagement is what you want and will get. I don't just send notification of your home for sale but I get them discussing it and sharing it across many platforms.

how I do it and how many I reach

I do what other Realtors can do but don't! My relationships and resources are what sets me apart. And that's what I bring to the table! As my client I share these and bring the most value possible.
